I am the head of reindeer herders family community «Ugut» Afa Enokhov, a participant of the Great Patriotic War.

I got a heavy battle wound and after many operations at the age of 21 I became a war invalid. I am eighty four, and today I am the only front-line Soldier in the village being well and working.

My grandchildren and great-grandchildren are near me.

My large family gather together every summer.

My grandchildren are the real reindeer herders and hunters.

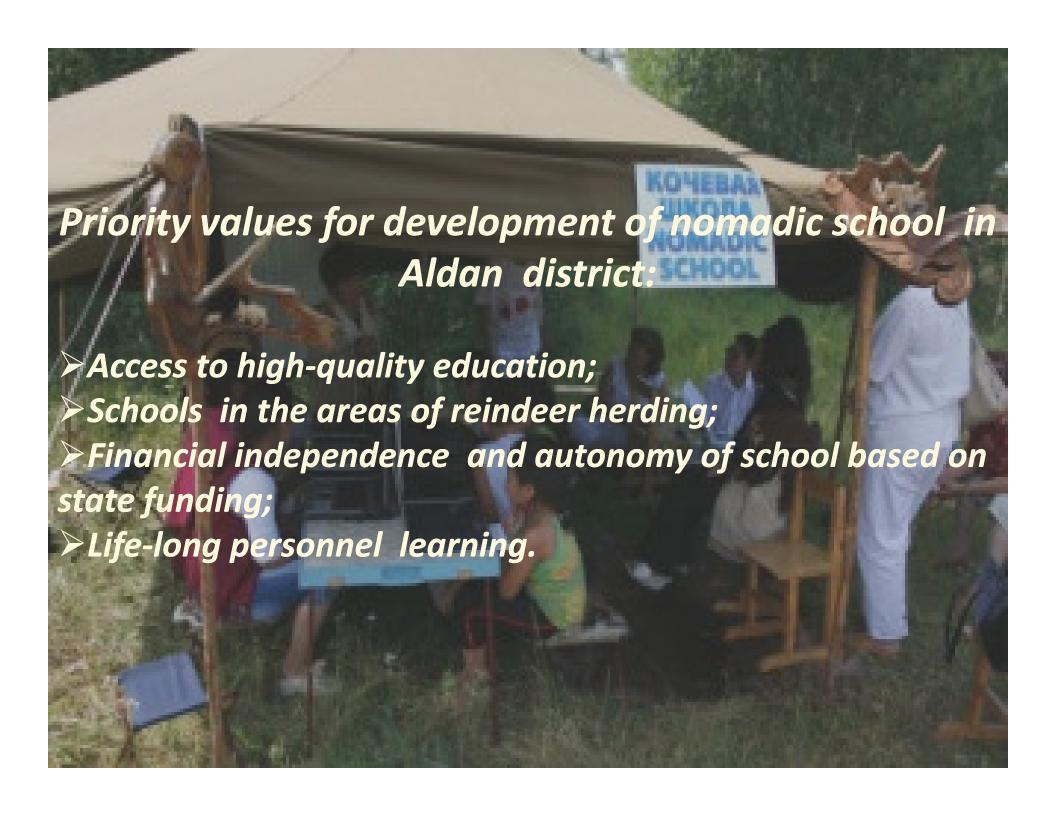

Many of them went to school which was opened

17 years ago at our community, and today they work in communities.

I would like to thank the Ministry of education of Republic Sakha (Yakutia) and personally General Director of YUNESKO Koitiro Matsuura, for their attention to our school.

Due to their support and help young people got opportunity to get acquainted to the world over the internet. My grandchildren and great-grandchildren will save traditions of evenks and be socialized into the modern society.
